

# esme basketball

\*ADDITIONAL MATERIAL FOR MAIN PRESENTATION

**Live basketball** PRIVATE  
Start with ESME Basketball

[basketball@esmesoft.com](mailto:basketball@esmesoft.com)

[www.esmesoft.com](http://www.esmesoft.com)

## Get unique **private** access and manage the application as if it were your own!

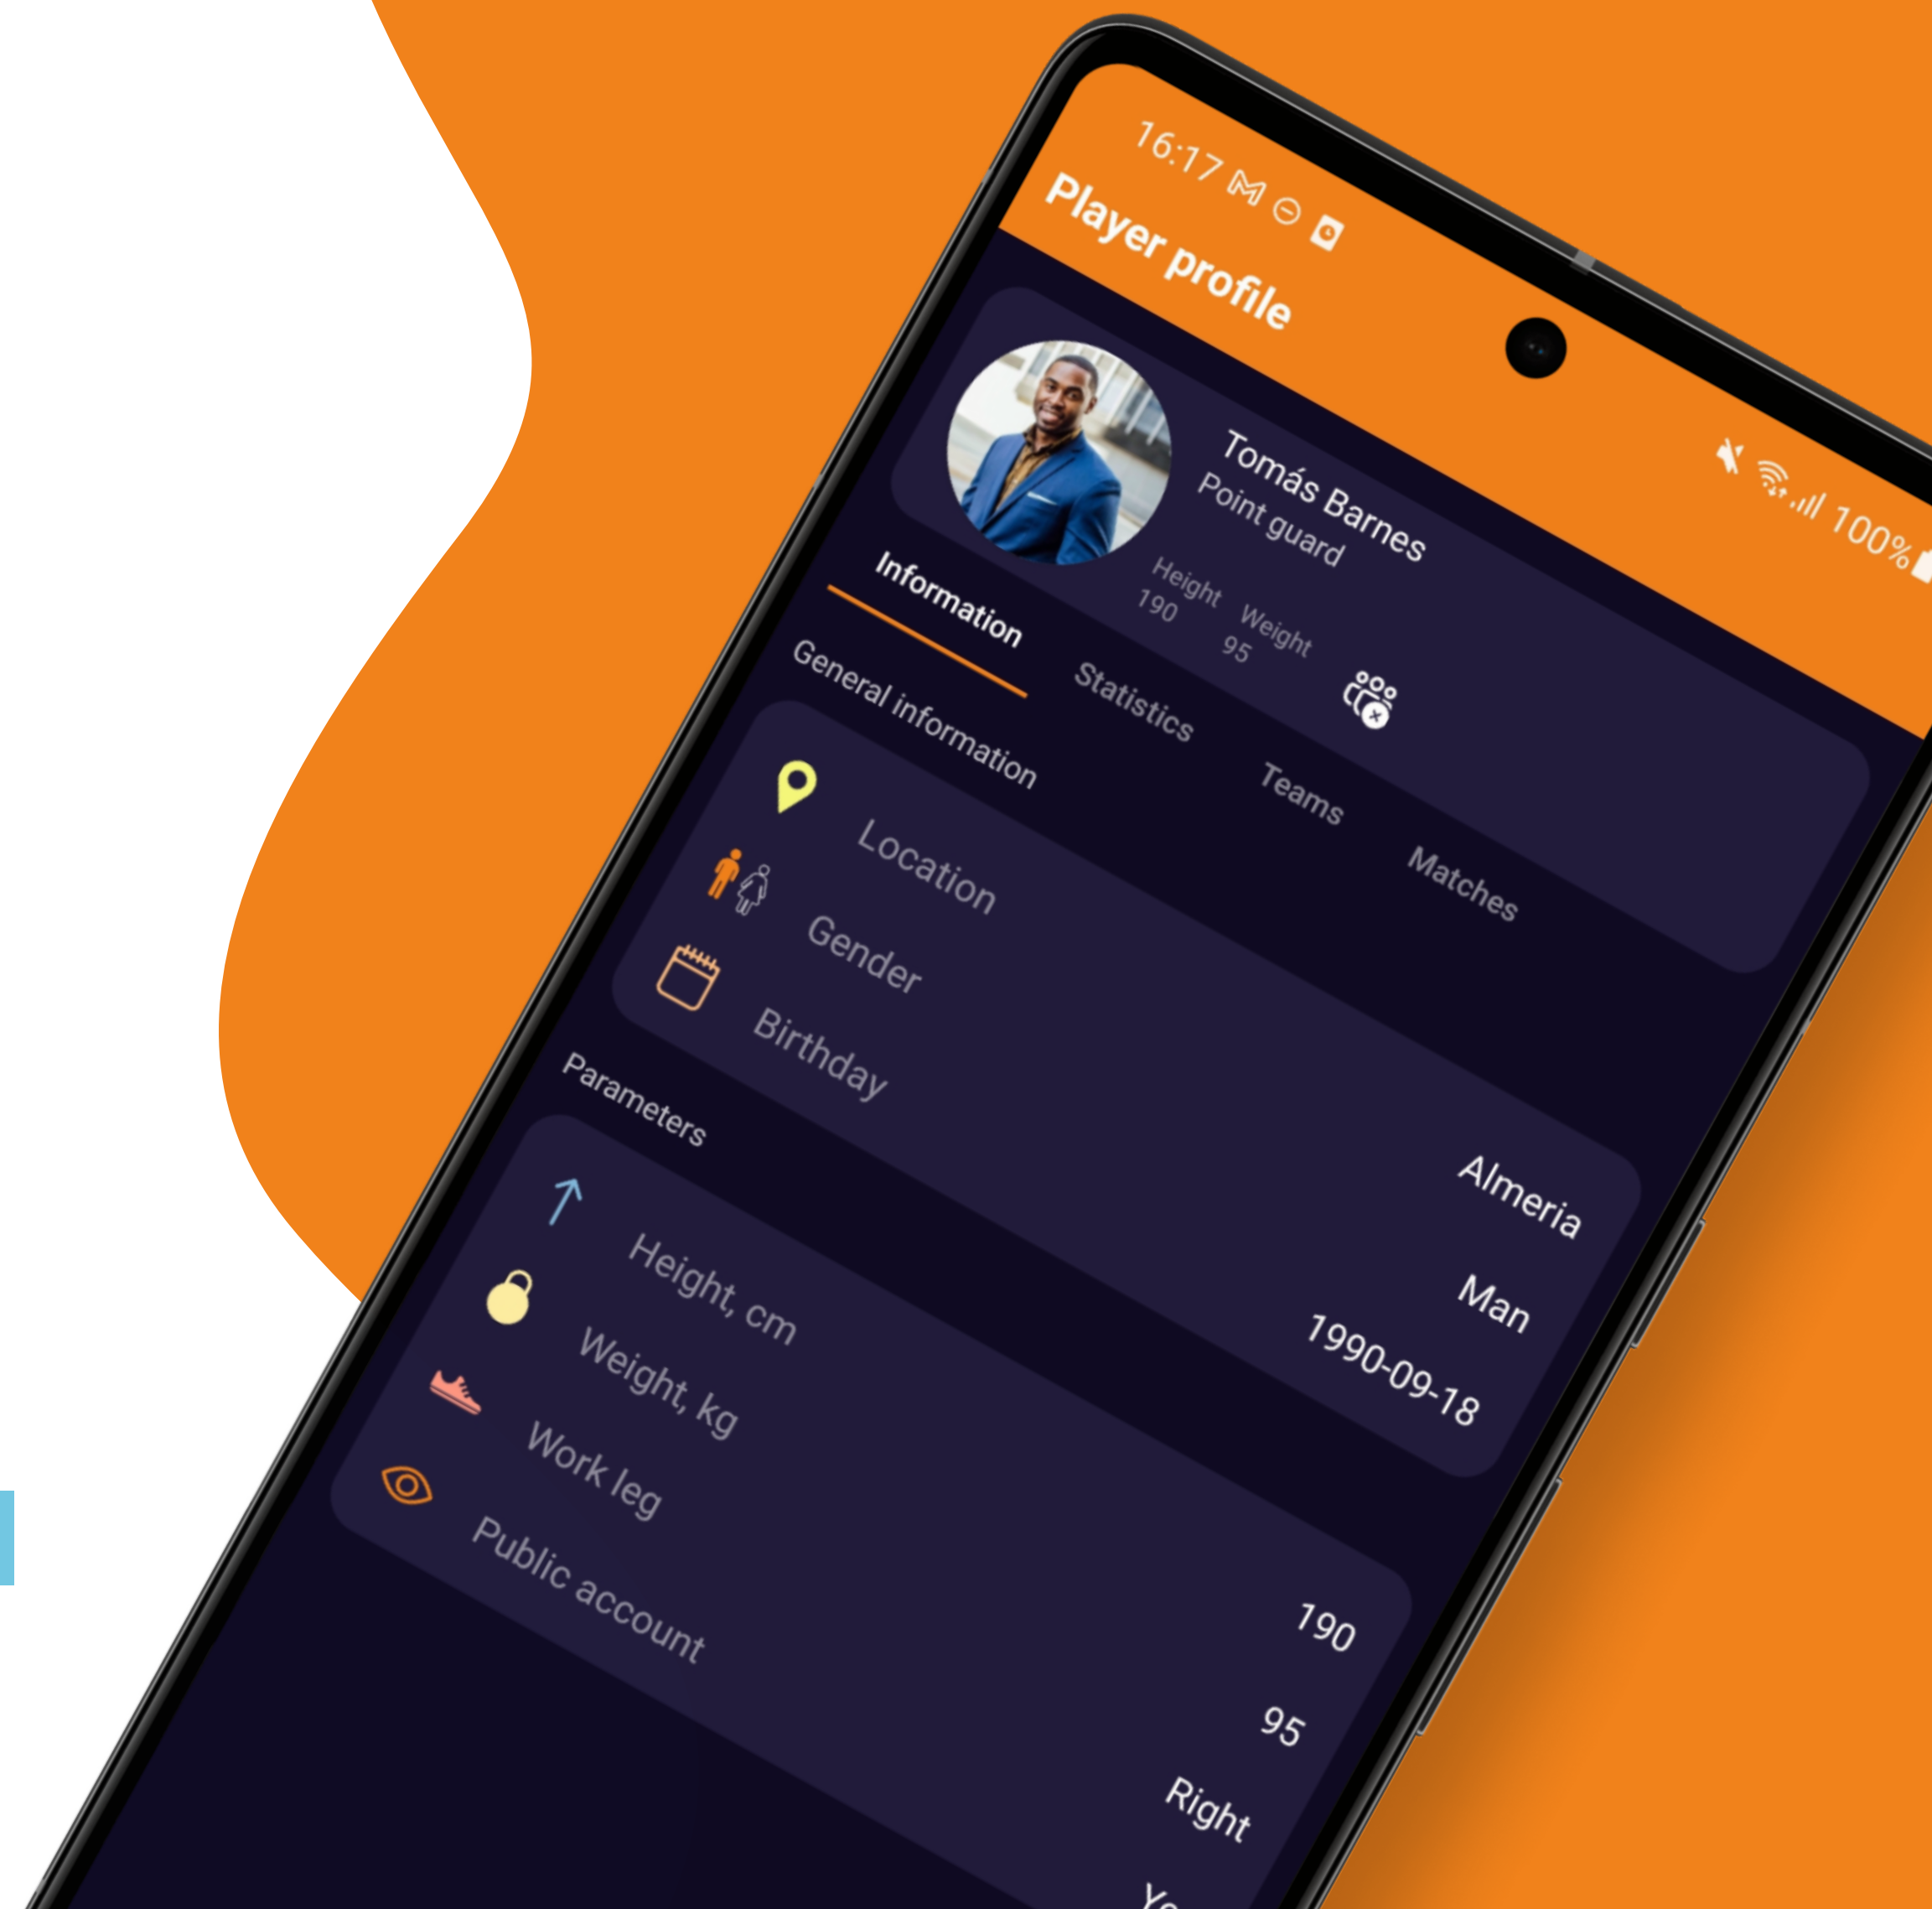

Our application provides an opportunity to purchase a paid subscription and use the application for **personal and important purposes**, without the cost of its development.

The content of your application will be available **only to your users**, available with a protected private group and hidden from public users.

If your organization is in need of privacy or big decisions, you can purchase personal access to the ESME Basketball app and administration, the content of which is completely under your **control**.

It is a secure solution for those who need privacy, especially sports schools, sports facilities **for children**, basketball organizations, VIP client offers, basketball arenas.

The number of private accounts in one company is not limited.

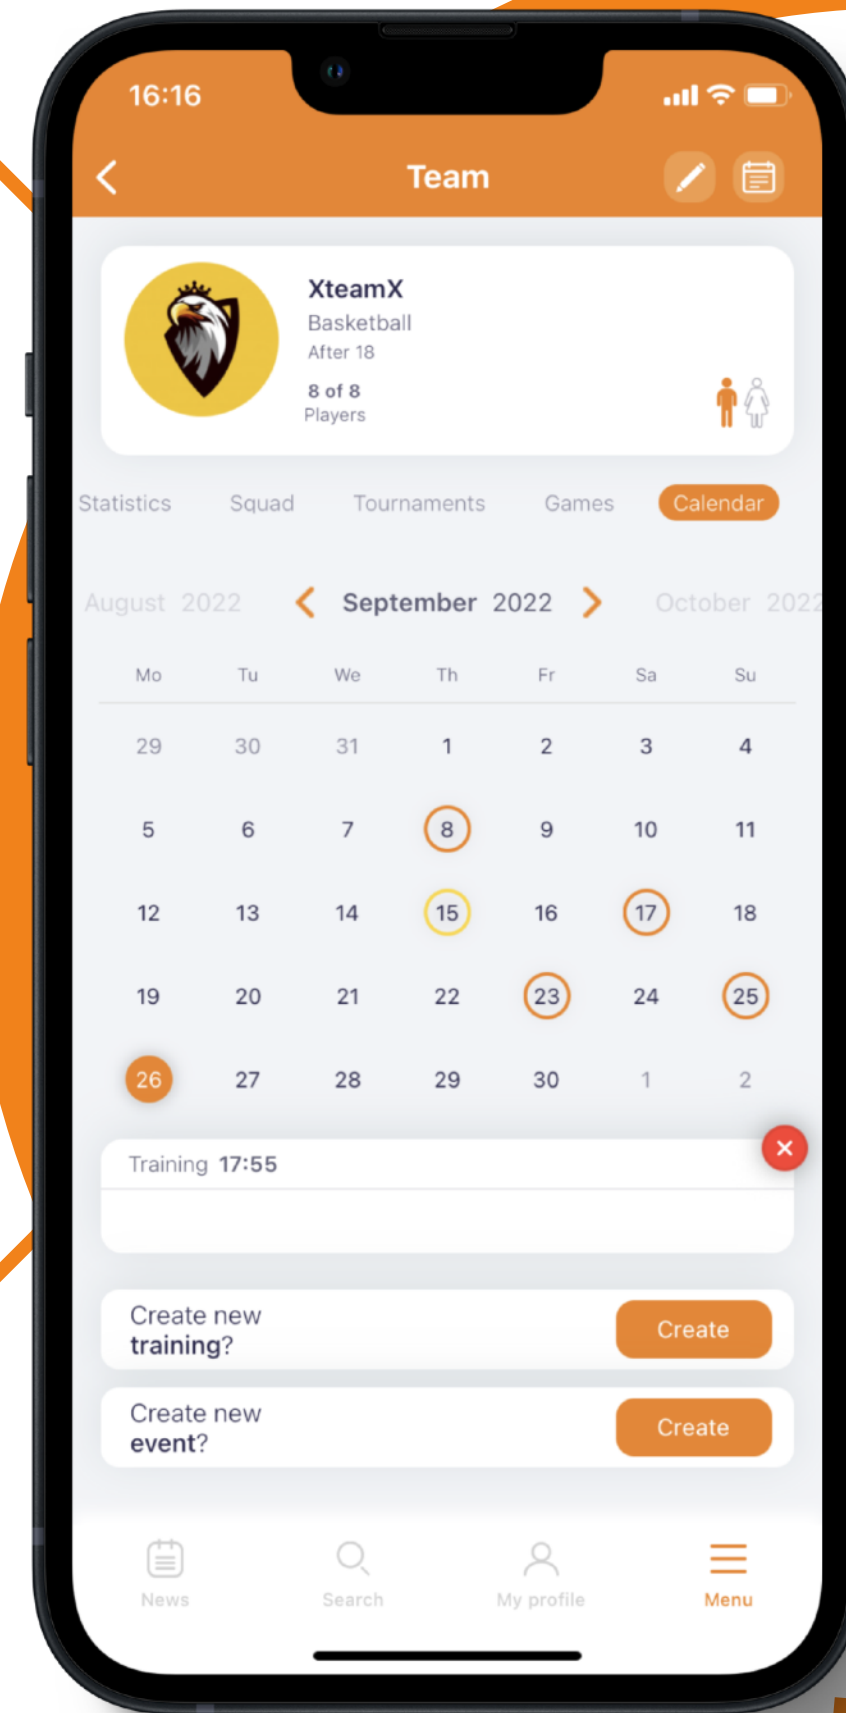

## Organization

Control of news, calendar, schedules and announcements. Managing access to information and promotional materials.

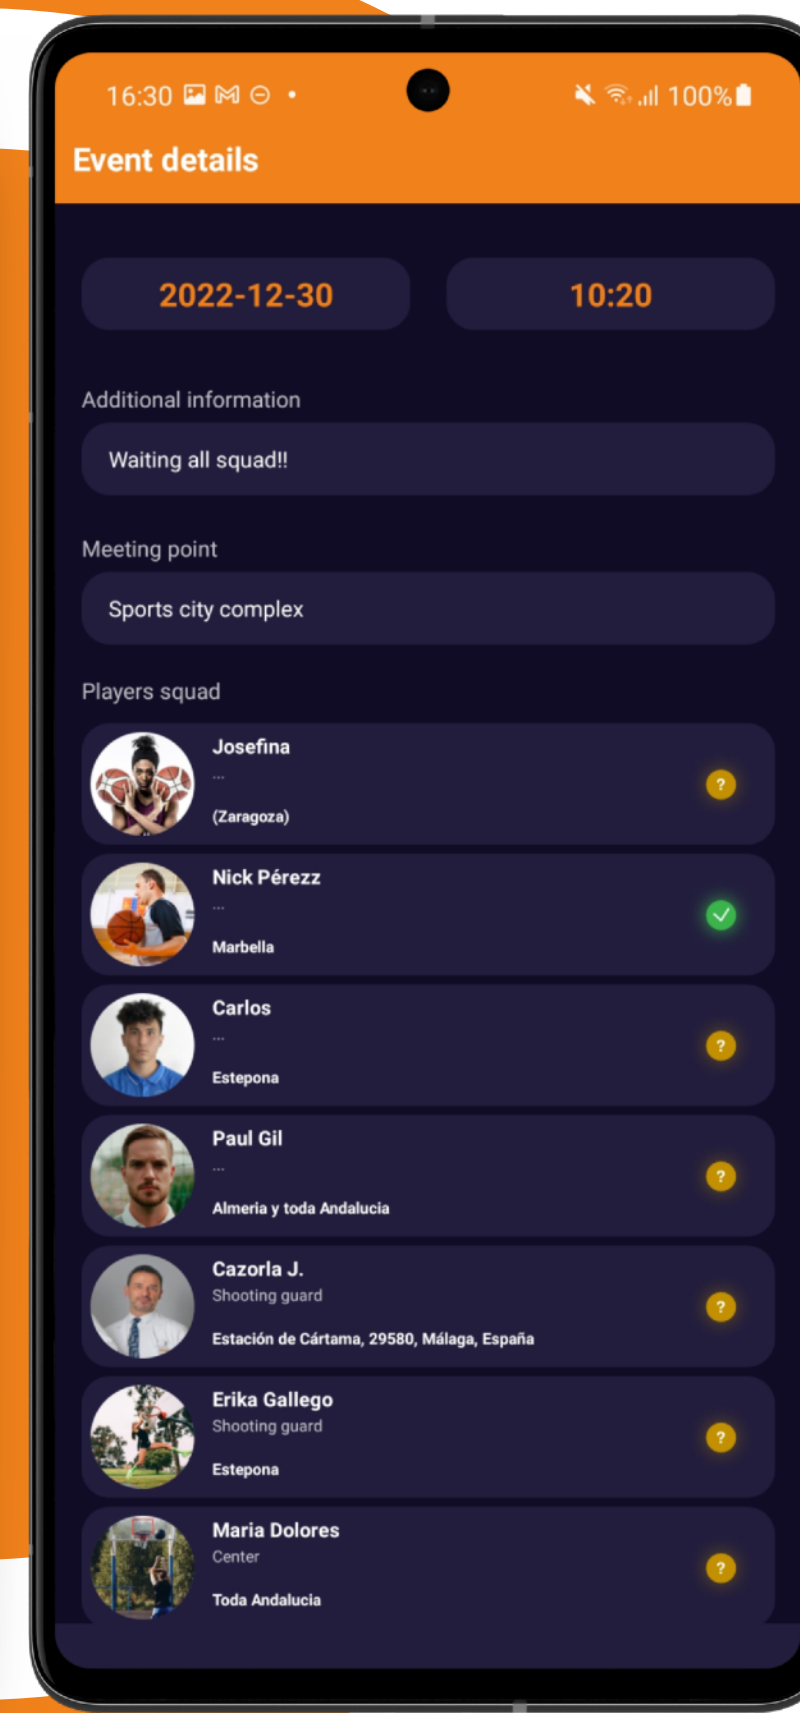

## Personal

Personalized content only available to users in your private group

## Control

Restricted access, only to trusted persons, employees, players or customers. Setting access levels for each participant

## Private PUSH

Customized push notifications that work with your content. Only users in your group will receive notifications.

## Personal safe platform for kids

**Planning** your own educational philosophy, learning time management, student control, organizing events, a **personal news** feed, a single account for a **child and a parent**, and much more. Personal access allows you to use all the functions of the application, while fully controlling the content and information received by children

## Private clubs and basketball organizations

Organization of **private events** and tournaments, publication of private information, **personalized push notifications**, participant control and much more. Creating a **unique experience** and service for private events with vip

## Basketball Camps

Personalized content, notifications, schedule and news feed for every age or language group. **Quick** connection of new clients, easy access to information, simple notification method

## Owners of clubs, courts and stadiums

A simple and convenient tool for **controlling business processes**. The application facilitates the work of the administrator, saves staff time, allows you to quickly notify of all changes, **notify** and much more

## Scouts and agents

Creation of a database of basketball players for viewing, organization of personal tournaments and matches to assess the skills of basketball players. Organization of **private paid lists** to promote basketball players to professional academies

## How it works? **Simply**

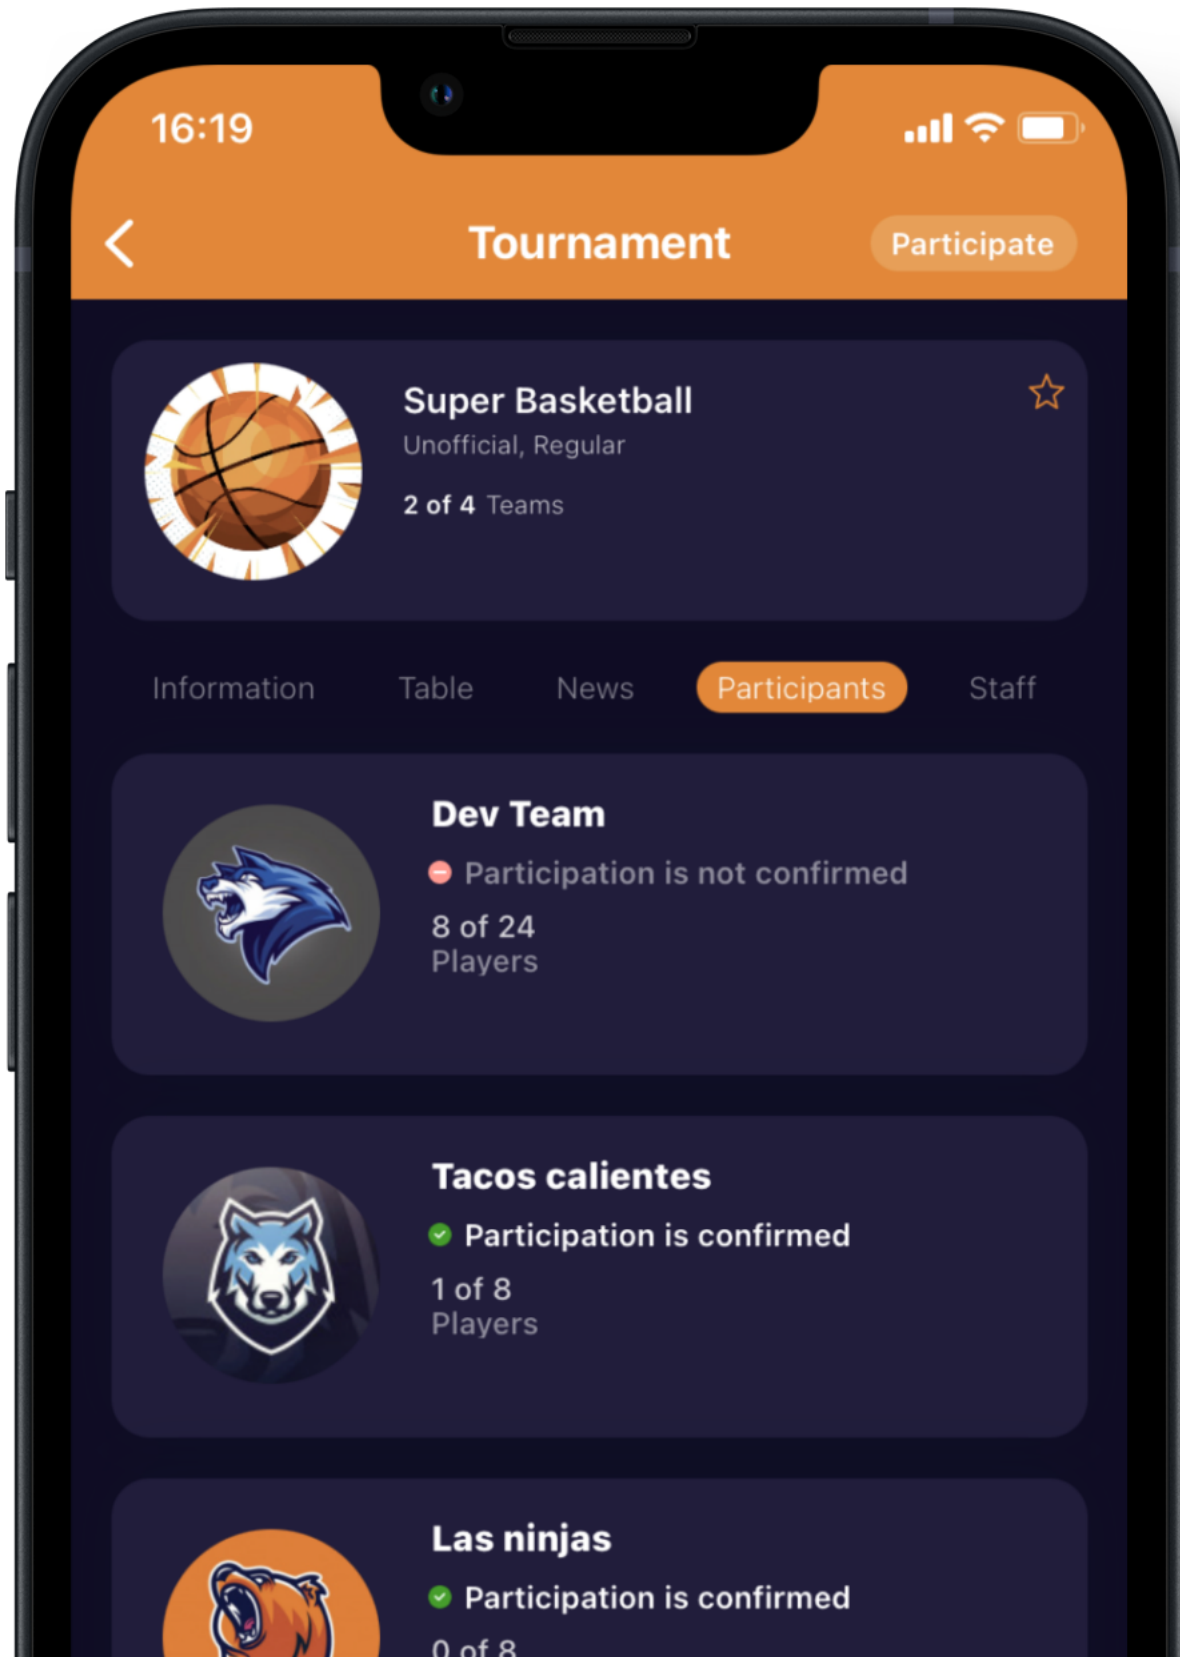

The process of setting up and gaining access is no different from the usual purchase in the online store!

-  Submit a request for a private account
-  Follow our registration instructions
-  Pay for a subscription
-  Get your personal login and password

### You can create any scenarios for your business and personal interests!

For example, collect all your clients for personal training in basketball skills or nutrition in one application and keep a personal blog and organize classes

## Flexible control panel

ESME Basketball has a **flexible control** panel that can be combined for any task. The user can go to the control panel and get access to useful system utilities, manage their tasks from any device: computer, phone, **tablet**

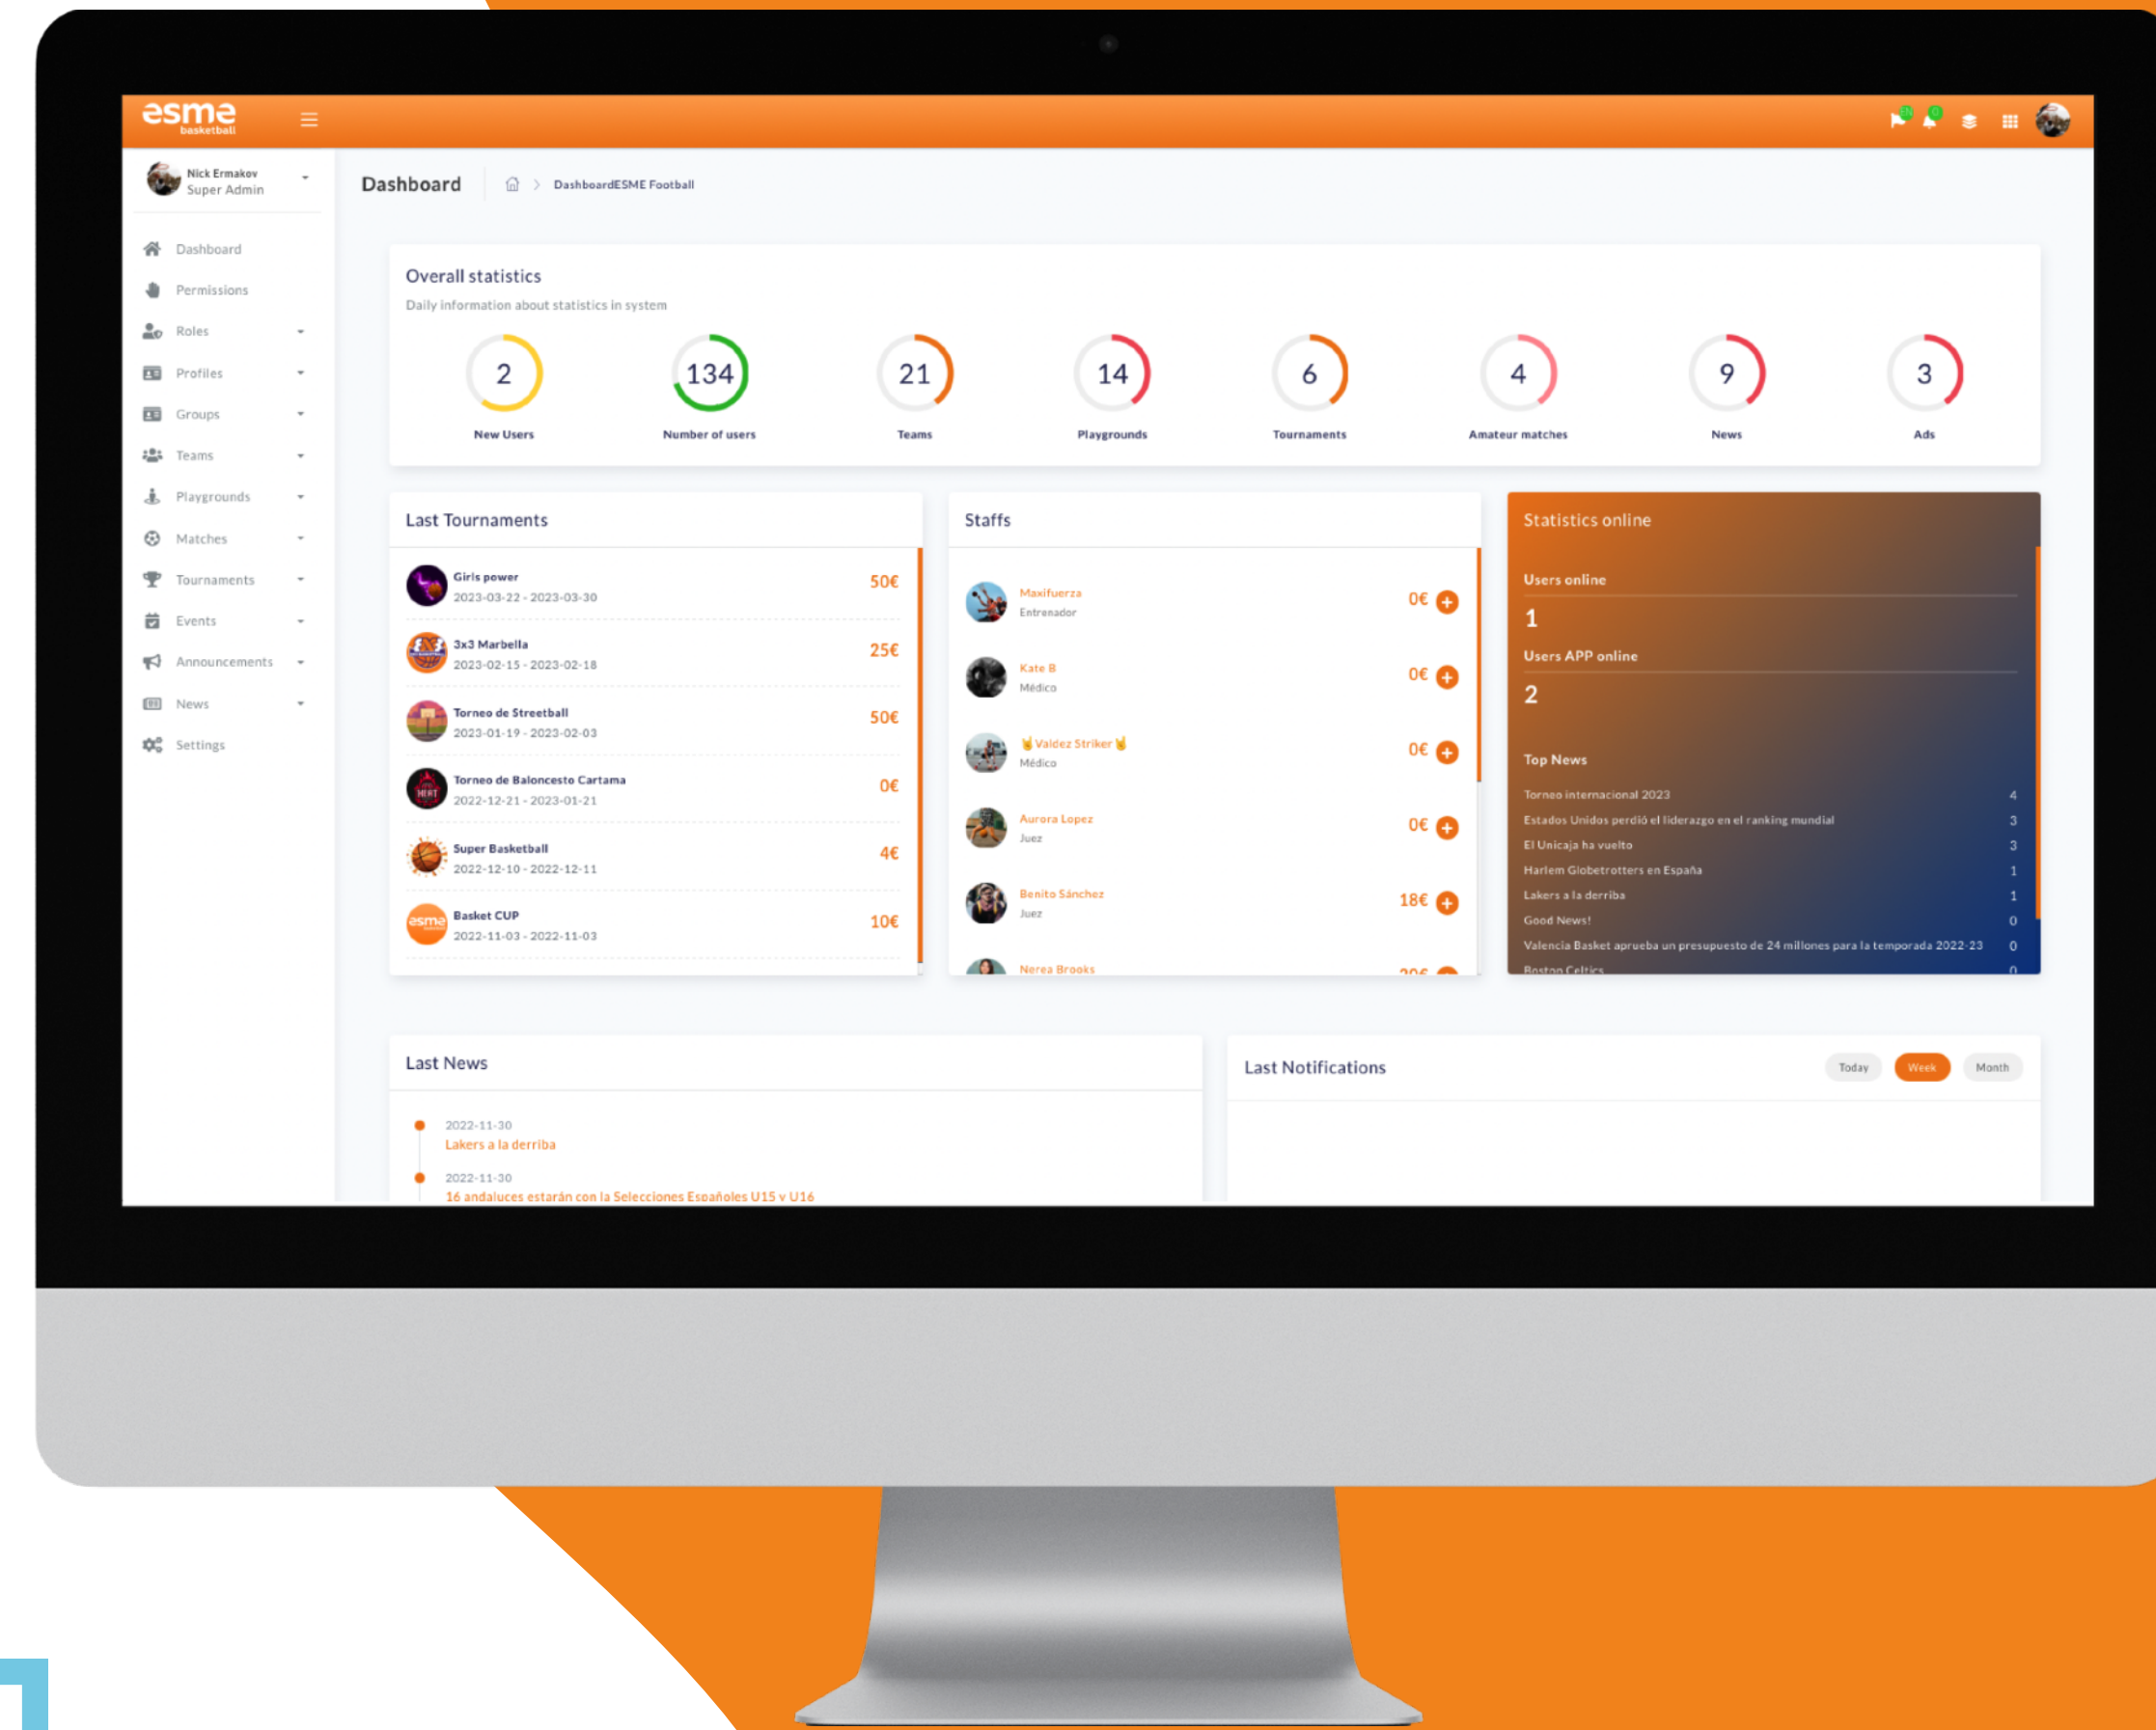

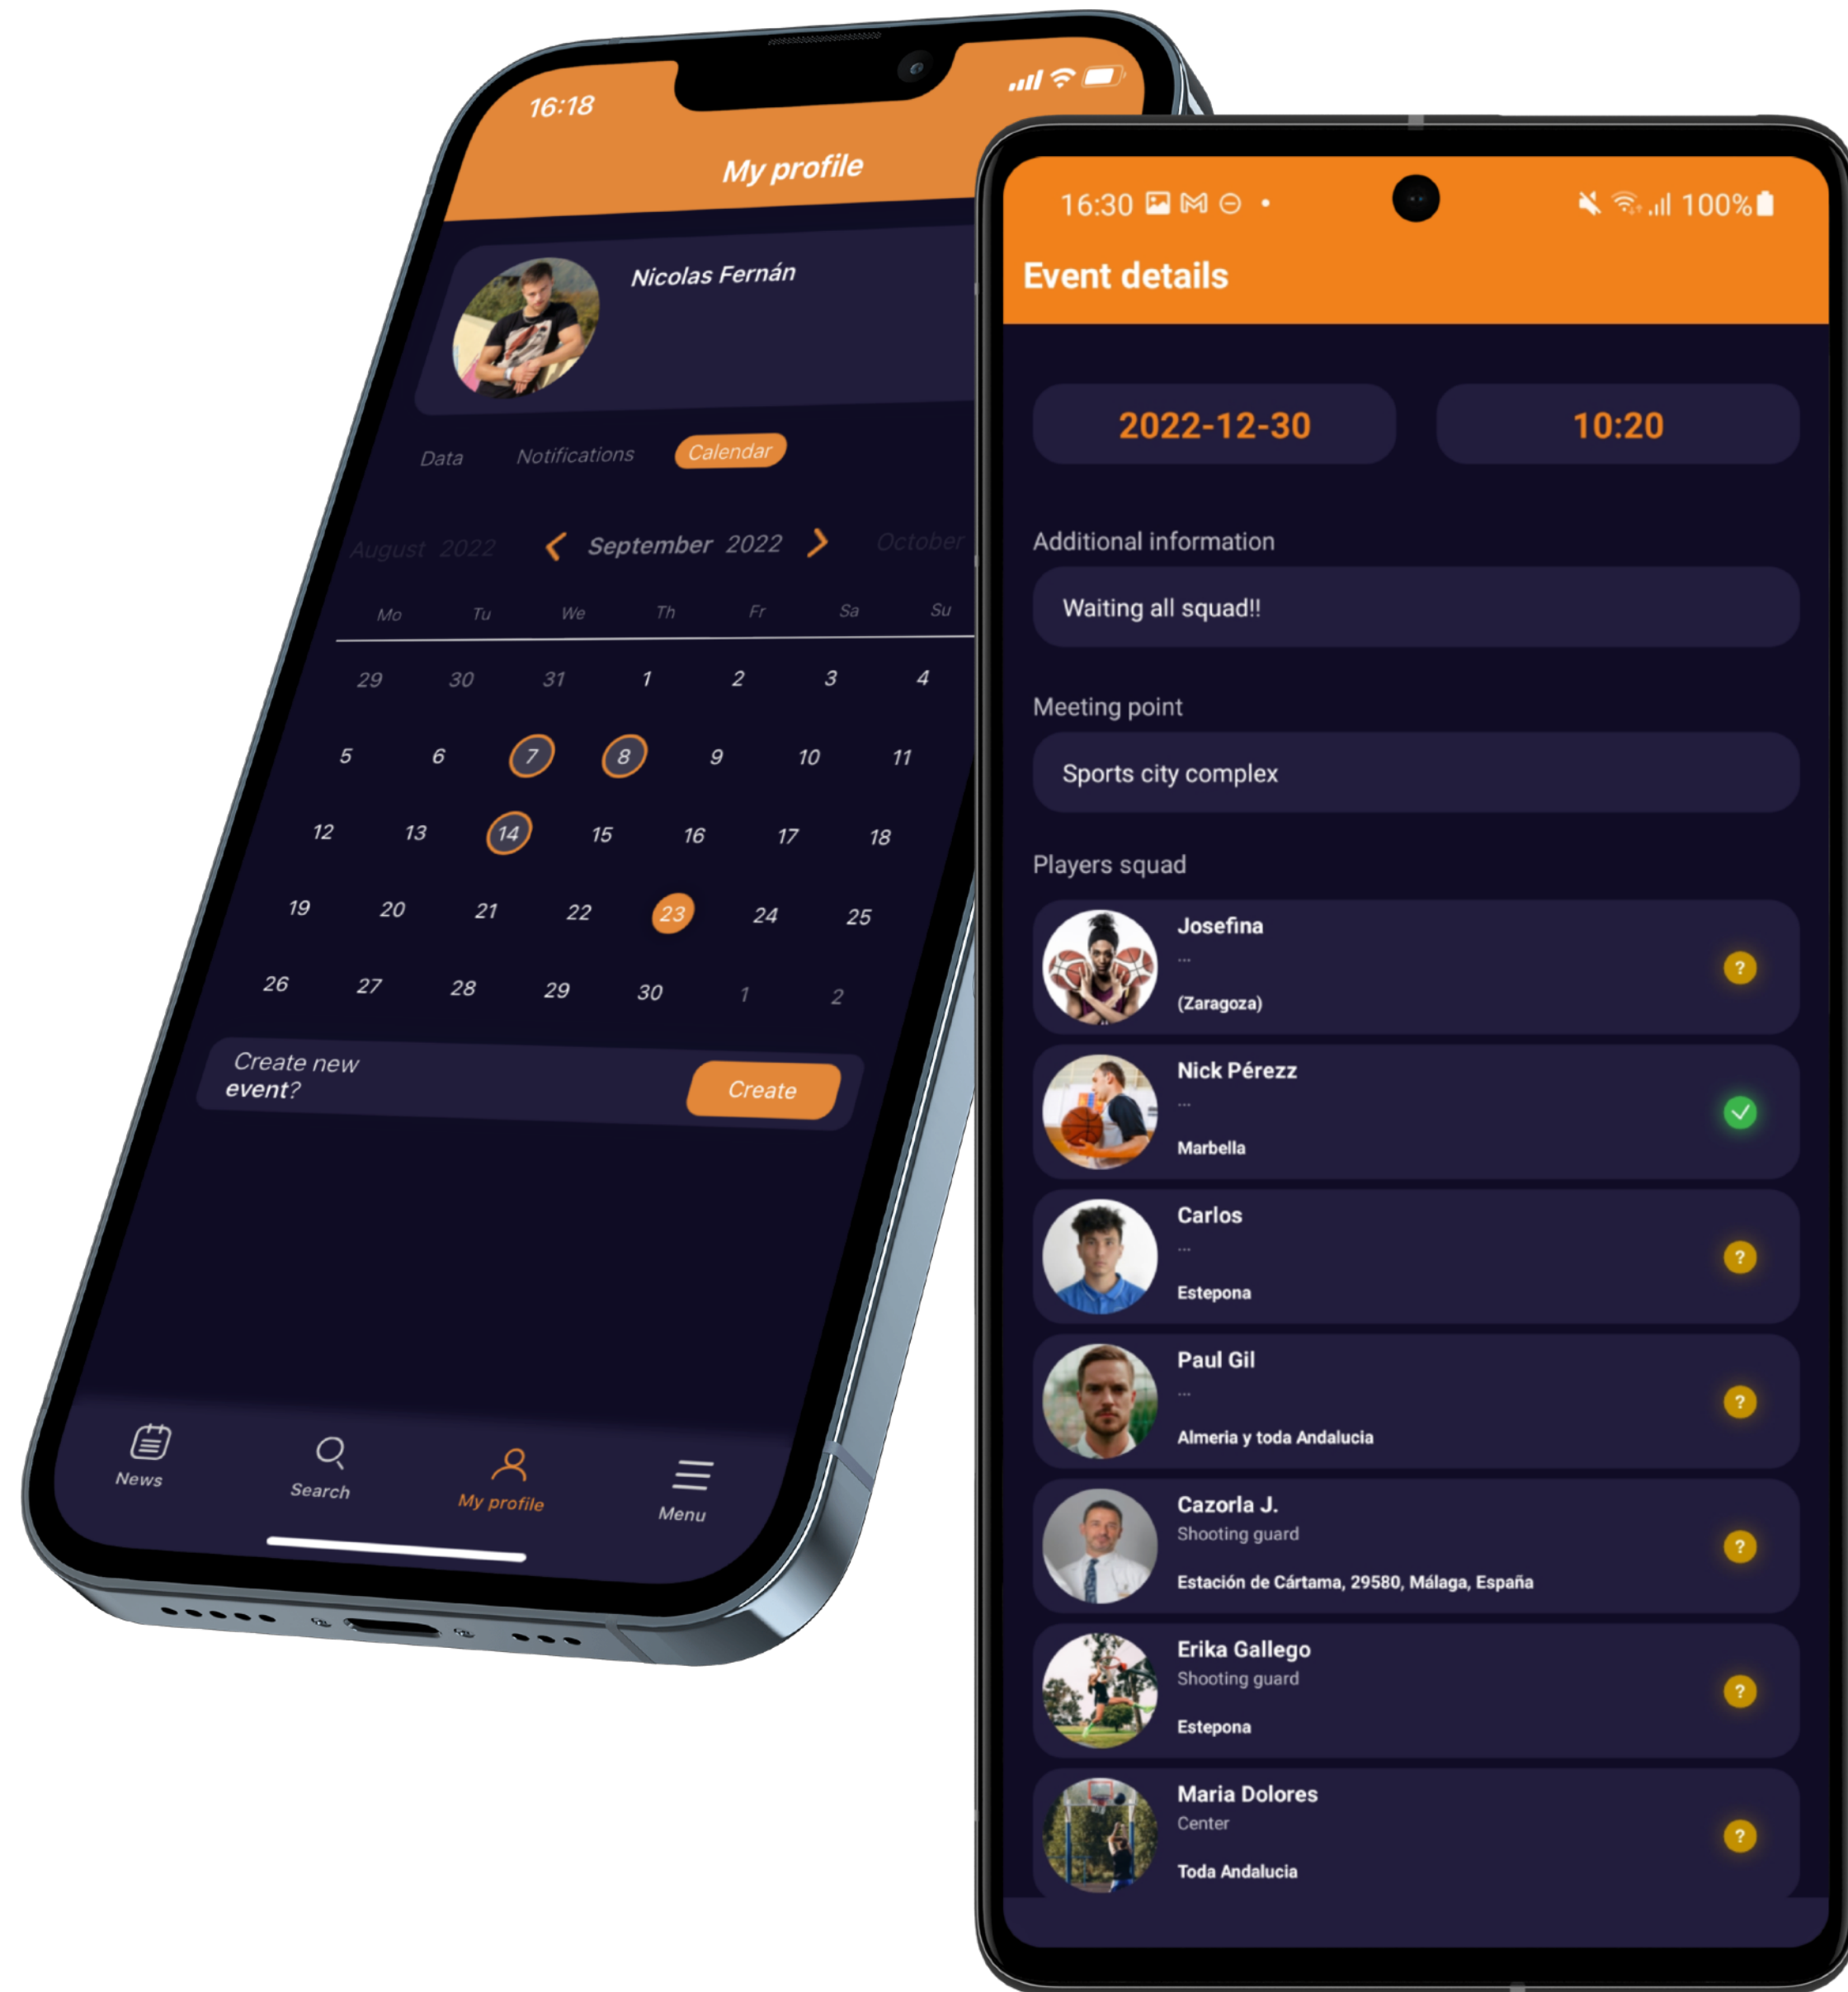

Call participants and set access levels for each of them to control the use of resources and information

**Create the best** tournaments in your city, make your sports blogging dreams come true with hosting events with guest stars, discover talents in any part of basketball life!

**Use the ESME Basketball Private** service at your discretion, without limits on fantasy and imagination!

ESME Basketball powered by our self develop control panel system:

## Basketball is just the beginning

The service for the development of basketball is just a launching pad for the implementation of our global ideas for the digitalization of sports life

It is now possible to download our ESME Football app for football fans. In the near future, we will launch platforms for other popular sports.

**Thank you for your interest in the ESME Basketball platform**
